

# STRUCTURAL BUILDING COMPONENTS MAGAZINE

December 2004

## Parting Shots

As you probably remember, the kick-off speaker at this year's BCMC was shrouded in much secrecy leading up to the show. Those who attended can understand why. After month's of hearing about a "very special, internationally renowned guest" and the need for additional security forces on the premises, the audience was taken by surprise as President George W. Bush took the stage—well, what appeared to be George W. After the initial shock wore off, BCMC attendees enjoyed the talent of world famous George W. Bush impersonator, Steve Bridges, who has impressed audiences near and far with his humorous impersonation of the second President Bush.

The fun continued on the show floor later in the day as various staff and WTCA members overheard conversations between attendees about the presentation. One former WTCA board member talked with someone who "couldn't believe BCMC was able to get the president to stop by during this busy election season." Tempting as it was to allow the individual to go on believing he has been in the same room as the Commander-in-Chief, the record was set straight and a good laugh was had by all. Hail to Steve Bridges as "Mr. President" for a BCMC Kick-off to remember!
