

Parting Shots

Share your stories and photos with us! Send submissions to partingshots@sbcmag.info.

This shot was taken seven years ago by a Delta Truss salesman in northwest lower Michigan. Can you guess if the trusses were built into and through the chimney or if the bottom chord was cut to make room for the chimney? Send your guess, along with your name and phone number, to partingshots@sbcmag.info by May 2, 2005. If your correct

answer is selected, you will win a copy of the WTCA/TPI publication, *Building Component Safety Information BCSI 1-03: Guide to Good Practice for Handling, Installing and Bracing of Metal Plate Connected Wood Trusses*. We'll print the photo's story and the winner's name in the June/July 2005 issue of **SBC Magazine**. **SBC**
