From cakes to connectors, Cal Jureit has lived a life full of innovative inventions, calculated business decisions and—maybe—a sprinkling of good luck. The funny thing is, the fifty-year-old Gang-Nail prototype that Cal is holding in this picture doesn't look very different from what

we're using today. That just goes to show you that genuine creativity genius will stand the test of time. Here's to fifty more years of growth through technology and innovations in the structural building components industry! Thanks, Cal! Cheers! **SBC**
