### Somebody Call the Safety Police!

It's hard not to look at photos like these and chuckle. The phrases "oh my goodness" and "how on earth" quickly come to mind. Of course, from a publishing standpoint, the knee jerk reaction is to recommend a "stunts performed by professionals, do not try this at home" caption, but reality tells another story. The forklift photo can be traced on the internet back to the Czech Republic and the scaffolding (we use that term VERY loosely) photo came to **SBC** in a goofy "Safety at Work" PowerPoint. It was a lucky dentist in Littleton, CO, that found the source of the toothache Patrick Lawler was complaining about on the roof of his mouth: a four inch nail he had unknowingly embedded in his skull six days earlier. Thankfully Patrick is okay, aside from his rather substantial hospital bills, but in light of these funny and scary safety snippets, an old proverb sums it up the best: **Better a thousand times careful than once dead. SBC**

**KOSKOVICH**  
COMPANY  
Automation that works.

# BUILDING SYNERGY

The key to building success is the relationship between all the parts and all the players - working together to get the ball rolling, building trust, Building Synergy.

We are the ITW Building Components Group, all the brands you have trusted for years working together to provide everything you need with outstanding products and services and expert support every step of the way.

Call us to see how we can help you connect all the dots from the first design step, to engineering, to fabrication and beyond.
