

Panels Plus
Albert Lea, MN

July 30, 2014

Panels Plus is back at BCMC for 2014! We are thrilled to be heading to Charlotte, NC this year and showcase our ongoing support to the fast growing housing market!

Here at Panels Plus we have proved our sustainability and stuck with you through the low points of the market these past few years. We are excited to see the industry continuing to improve and we are optimistic about the future growth. It's time for your business to get back in the profit and Panels Plus has the experience, support and efficient new products to help you capitalize on this exciting opportunity.

We encourage all participants and potential clients to stop by our booth and hear our story as we look forward to hearing yours. You can contact us at any of the numbers below or visit us at www.panplus.com.
